

**South East Queensland Regional Plan review**

The review of the South East Queensland (SEQ) Regional Plan is currently underway. The Terms of Reference (TOR) for the review have been endorsed by state government. The TOR outline a number of key issues to be considered as part of the review (listed below).

Order by circling each key issue in priority of low, medium and high. If there are any additional key issues you believe should be considered add them in the space provided.

- L M H Managing the projected population increases of around 1.2 million people over the next 20 years
- L M H An assessment of the capacity of the Urban Footprint to 2031, including a review of the urban management strategy proposed in the current plan
- L M H Development of a regional climate change management strategy
- L M H Provision of a wide range of housing opportunities to meet diverse community needs and address housing affordability issues
- L M H Identification of a network of employment opportunities, including industrial lands, to provide a more diverse and decentralised pattern of employment
- L M H Improved linkages between residential areas, employment areas and public transport, including a commitment to more consolidated and transport friendly development
- L M H Development of a integrated regional transport plan and congestion management strategy
- L M H Development of an integrated regional open space system, including rural and urban networks
- L M H Enabling development of appropriate rural industries, tourism and non-urban economic opportunities in the region's rural areas
- L M H Strengthening the sustainability framework of the SEQ Regional Plan
- L M H Reviewing the operation of the Regulatory Provisions of the SEQ Regional Plan

Other key issues not identified above:
